

Dear young Europeans,

for me, in my office as a Member of the European Parliament, I am honoured to take part in the initiative „ Young ideas for Europe“. It is very important to find out more about the ideas of the young generation and to encourage them to actively contribute to the European Integration. This project is certainly an excellent occasion to exchange different views and discuss our European present and future. In many different policy fields, the wishes and opinions of young people have to be considered, today more than ever. There is no doubt: Your future is definitely an european one! You can travel and study, live and work wherever you want. Most of you are certainly willing to take the chances Europe is offering you. That is why I hope to be a helpful patron to this project and an interesting discussion partner. I am really looking forward to the event.

Yours sincerely

Christian Ehler
